Mikael Brodd

Agile Transformation Specialist

Agile Coach

Teacher

Professional Coach

About me

I really believe that agile and lean are the current best ways for a company to stay relevant in a fast-moving world. What I do is help companies adapt to agile and lean ways of working and make sure that the changes stick.

I have had the fortune to be part of successes, and also seen what doesn't work. I am convinced that there are no one-size-fits-all solutions, but rather create a way of work that is tailor made for your company's unique situation.

My passion is to help create teams that feel engaged and empowered in an organization where people pull in the same general direction towards company goals. This is not easy – but definitely achievable and I have been part of creating that. This, in combination with relentless pursuit of continuous improvements, are two pillars in what I believe.

Privately I have a family with a wife and two daughters. We live close to S:t Eriksplan in central Stockholm, Sweden. I like many things on my spare time, but mainly keeping fit (running), cooking and hanging out with our friends.

Expertise

Enterprise Agile, Lean thinking, Scrum, Kanban, XP, Professional Coaching, Agile Architecture

I spend most of my time working as an agile coach, supporting multiple teams, tribes (departments) and management. I use a combination of teaching, mentoring, facilitation and (professional) coaching to best help my clients.

I am also a professional coach (ACC level, ICF) and help develop people, mainly managers, using strictly professional coaching.

I have a solid background in developing products. I have more than 20 years of experience being a developer and architect of large scale solutions. Even though I do not code professionally on a daily basis, I still occasionally support teams with knowledge on coding, architecture and how to build a well-functioning development process.

Education

Bachelor of Science in Electrical Engineering, Royal Institute of Technology (KTH), Stockholm, Sweden, 1990

Other classes (a selection):

- **Professional Coach ACC** (Leapfrog)
- **Lean Change Management** (Jason Little)

- **Clean Code** (Robert C Martin)
- **Agile Requirements Analysis and Planning for Product Success** (Ellen Gottesdiener)

Employments

2010 – present	Crisp AB (Partner)
2004 – 2010	Spinator AB
2000 – 2004	Site AB
1998 – 2000	Contactora CAG AB
1994 – 1998	Cap Gemini AB
1991 – 1994	Ericsson Telecom AB

Teaching

Teaching is a big part of what I do. Most of the time I do internal training for clients that want customized classes, but also public training as part of Crisp's offering. Here are some examples:

1 - 2 day classes I teach

Introduction to Agile

An introduction to Agile, Scrum, Lean and Kanban for team members, managers or anyone that wants to learn about it.

The Agile Mindset

Understand what an Agile Mindset is and why that is crucial for success.

Kanban in Practice

2 day class that deep-dives into Kanban and what you need to do to succeed with Kanban.

Scrum Master and Product Owner

Tailor made classes for developing Scrum Masters and/or Product Owners in their necessary skills.

Short classes (1 - 4 hours)

- Scrum in real life
- Strategy with OKRs
- Definition of Done/Ready workshop
- Effective retrospectives
- Creating and slicing user stories
- Kanban intro
- Lean Thinking
- Theory of Constraints
- Tracking continuous improvements
- Using A3 to drive improvements
- Root cause analysis (5 whys, Cause-Effect diagrams)
- Impact Mapping
- User Story Mapping
- Working Agreements

This is a selection.

Some of my clients

Klarna.

Schibsted

Engagements (selection of)

Telenor Sverige AB, Networks division

Head Agile Coach, January 2020 – present

Leading a group of agile frontrunners with representatives from all departments in the Networks division. Our task is to explore where and how an agile way of work can benefit the different departments, and provide a roadmap for the departments to align to the company strategy process using OKRs and 10 weeks planning cycle.

During this time I have supported various management teams, helped many teams, educated a vast number of people in the agile mindset and how Scrum and Kanban works.

This has resulted in the creation of teams (squads) where possible, introduced new roles, and provided a greater structure for Networks departments to understand the company strategy and start to contribute to that in a more clear and transparent way.

Telenor Sverige AB, IT and Networks division

Tribe Agile Coach and part of ACE, September 2018 – December 2019

Working as Tribe Agile Coach with the sole responsibility for improving the agility of the tribe. Worked with the management team and squads on many things, such as setting up chapters, creating structures for continuous improvements, running inspirational talks, teach agile practices, implement OKRs as part of strategic governance, helping the management team be more agile and transparent and much more.

All tribe Agile Coaches were part of ACE, Agile Center of Excellence, where we helped Telenor in large to become truly agile. This meant running company wide trainings, developing the organization and the strategy process, introducing new parts of the company into agile ways of working, perform cross tribe retrospectives to continuously improve, etc. ACE itself was governed using OKRs to measure progress towards the goals.

Telenor Norway

Enterprise Agile Expert, September 2018 – January 2019

Took part in a team who's purpose was to re-start Telenor Norway adaption of Agile ways of work. We developed a roadmap for Telenor Norway to kick-start the adoption of Agile I large scale. My job as an expert in Enterprise Agile was to provide expertise in how to apply Agile on a large scale, and also bring learnings from Telenor Sweden.

Parental leave

August 2017 – June 2018

Klarna

Agile Coach and Delivery Lead, January 2017 – June 2017

Helped a number of teams to adopt a more agile way of work. Things like clarifying the mission statement, creating working agreements, helping teams understand different Scrum practices, etc.

As a delivery lead my main task was to support in the delivery of the beta version of the Klarna Card. My part was to coordinate the 16 teams involved in the development effort, helping the be as autonomous as possible considering everything else they also had to do.

Was part of a group of delivery leads and we also helped out in developing agile ways of work in Klarna, mainly driving the Big Room Planning.

Telenor Sweden, Digital Frontend

Agile Coach, August 2016 – December 2016

Telenor.se had started their agile journey but was stuck. My job was to help them understand why and get them going again. This resulted in a number of actions, the biggest being a larger education initiative in both Stockholm and Karlskrona.

Parental leave

January 2016 – August 2016

Schibsted Sverige, "Centralen"

Agile Coach, January 2015 – December 2015

Agile coach to the development teams with the task to help them move further in their agile journey. This resulted in a number of activities, ranging from introducing mob programming to developing their versions of Scrum Master and Product Owner. Worked with the management team to help them understand agile principles.
